

Stillhouse Trails

Project Fact Sheet

CONSTRUCTION TIMELINE

PROJECT OVERVIEW

The Stillhouse Trail connections would link the Cumberland community to new residential and commercial office developments within the natural and rustic Stillhouse area.

- The Stillhouse Trails Connectivity Study proposed 1.9 miles of trails south of Cumberland Boulevard and north of Paces Ferry Road.
- The scoping study would further examine the proposed Stillhouse Trail alignments:
 - Feasibility of railroad crossing
 - Identifying ROW
 - Concept design
 - Cost estimates
 - Submission of concept report documents for GDOT approval
